Subject: New Company Announcement

Attention: Valued customer of the former A-1 Components Corporation

Henry Technologies, Inc. ("Henry") and Hendricks Holding Company, Inc. ("HHC") are pleased to announce that HHC has acquired the assets of A-1 Components Corp. ("A-1") on June 14, 2007 from A-1's secured lender. The former A-1 business will be operated by A-1 Components, LLC which will join the group of companies managed by Henry which currently consist of the Henry core businesses; Stainless Tank & Equipment Co., LLC, a manufacturer of stainless steel over the road tankers, stationary tanks and specialty vessel fabrications; and American Industrial Steel & Supply, LLC, a steel and industrial supplies distributor center.

HHC is the private holding company of Ken and Diane Hendricks. The Hendricks have founded and own many companies, including American Builders & Contractors Supply Co., Inc. ("ABC Supply"). ABC Supply is the largest wholesaler of roofing and siding products in the United States with 2006 sales of \$3 Billion.

Henry, headquartered in Beloit, WI, is a 93-year-old privately held manufacturer of components used in commercial and industrial refrigeration and air conditioning industries. The company markets its products worldwide to leading original equipment manufacturers of refrigeration systems, and wholesalers in commercial and industrial refrigeration and air conditioning products. Henry has manufacturing locations in Chatham, IL, USA, Brantford, Ontario, Canada, and Glasgow, Scotland.

Henry's products are sold under the Henry Valve, AC&R, and Chil-Con brand names. These brands are recognized throughout the refrigeration industry as representing quality and innovative products that provide proven solutions for many refrigeration and air conditioning applications. Henry has consistently emphasized and invested in product development engineering and is a leader in the introduction of new products for the ever changing demands of the refrigeration industry.

The new A-1 will manufacture and distribute products supporting the heating, ventilation, air conditioning and refrigeration ("HVACR") markets located in Hialeah, FL. A-1's brand names include; Magni-Chek™, Cam-Stat™ & Linbacker™, Allin Liquid Eye™, A-1, A-2, & A-3 Line Tap Valves, and P&PH Fin Combs™.

The acquisition of A-1's assets by HHC will allow an aggressive growth strategy to take advantage of opportunities to expand into new market areas and product line offerings. A-1's product offering is complimentary to Henry's in many aspects while utilizing the same channel to market. Henry's management will implement immediate measures to improve on customer service, on time deliveries while maintaining a quality product at a competitive price, very similar to the Henry turnaround.
