Michael Giordano appointed President and CEO of Henry Technologies

BELOIT, Wisconsin, USA -- November 10, 2008 -- Henry Technologies, Inc. ("Henry") and Hendricks Holding Company, Inc. ("HHC") announced today the appointment of Michael Giordano as President and CEO of Henry Technologies.

Giordano most recently was President of Fedders Corporation, a maker of residential, commercial and industrial heating, ventilation and air conditioning products. There he held a series of senior positions including President - International, Managing Director - Asia and Chief Financial Officer. He earned his MBA from Rutgers University, NJ and bachelor's degree from St. Lawrence University, NY.

Henry, headquartered in Beloit, Wisconsin, is a 94-year-old privately held manufacturer of components used in the commercial and industrial refrigeration, air conditioning and process plant equipment industries. The company markets its products worldwide to leading original equipment manufacturers of refrigeration systems, wholesalers in commercial and industrial refrigeration and air conditioning and engineering firms and contractors serving the process plant equipment and oil and gas industries. Henry has manufacturing operations in Chatham, Illinois (USA), Brantford, Ontario (Canada), and Glasgow, Scotland (UK). Its products are sold worldwide under the Henry Valve, AC&R, A-1 and Chil-Con brands. The company is widely recognized in the industry for high quality and innovative products that provide proven solutions.

HHC is the private holding company of Diane Hendricks. Hendricks founded and owns many companies, including American Builders & Contractors Supply Co., Inc. ("ABC Supply"). ABC Supply is the largest wholesaler of roofing and siding products in the United States with 2008 sales of approximately \$3 Billion. HHC acquired Henry in 2005.

Commenting on Giordano's appointment, Jeff Stentz, President, HHC said, "We are pleased to welcome Michael to lead Henry Technologies. His vast industry experience combined with his leadership skills and expertise in manufacturing, sales and marketing, engineering, finance and international business will lend itself to helping Henry realize its full growth potential and value."

Giordano added, "Henry has played a vital role in the development and growth of the HVACR industry during the last 100 years. It is second to none in terms of the broad range of high quality products it offers. My goal is to build upon the company's significant strengths and upon the investments the Hendricks have made to the greatest benefit of the company's stakeholders, employees and trading partners."
